

BRAND STANDARDS

Every piece we
put our name on.

EDITION 01 SEPTEMBER 2026 AGENTS & PRODUCTION PARTNERS

HOW TO USE THIS

Mont Haus is a young brand in an old market. What makes it read as established is not any single flyer — it is that every flyer, postcard, post and sign looks like it came from the same house.

This document is the short answer to “can I...?” Everything in it was pulled from work already approved and in market: the 2026 Listing Presentation, the 221 Wrights Road and 633 West Main brochures, the 450 Solar Way direct mail, the corporate social library, and the final logo artwork itself. Point sizes, tracking values and color builds are measured from those files, not invented.

If a piece you are building is not covered here, the answer is not to improvise. Ask marketing — and the piece you build together becomes the next standard.

THE ONE-MINUTE VERSION

PRIMARY LOGO MH Full Stack. Use it unless there is a reason not to.	HORIZONTAL LOGO Only when the space forces it. Classified ads and long, skinny formats. Not a general option.
STANDALONE MARK The M Mark. The triangle group is never a substitute for the logo.	DISPLAY FACE FreightBig Pro for corporate, Cormorant Garamond for listing brochures.
WORKING FACE Apparat SemiCondensed. Caps, generous tracking, light weights.	COLOR Black, cream, bronze. Photography supplies the color.
CLEAR SPACE One cap height of the MONT letterforms on all four sides.	ON DARK GROUNDS Use the reversed files. Never flip a black logo to white. The M closes up.
WHERE FILES LIVE Five folders only: MH Full Stack, M Mark, Triangle Mark, Triangle Groups, MH Full Horizontal.	NEVER Retype the wordmark. It is drawn artwork, not a font.

The logo system

Five pieces of artwork, and a strict order of preference. The name is the brand; the marks support it. Nothing in this system is a font — every lockup is outlined vector art and must be placed, never rebuilt.

MH FULL STACK — PRIMARY

The default signature of the firm. Use on covers, postcards, signage, social, letterhead and anything with a square-ish area to fill. Proportion 1.356 : 1 in black; the reversed file is redrawn at 1.359 : 1.

Final Logos / MH Full Stack

M MARK — PRIMARY SHORT FORM

The only approved standalone mark. Use where the full lockup will not read: avatars, favicons, business-card backs, sign corners, watermarks on photography. Proportion 1.061 : 1.

Final Logos / M Mark

TRIANGLE MARK — GRAPHIC

Chiefly a background device: oversized, low-contrast, bleeding off the page. Occasionally allowed as a foreground graphic on a plain field — a business-card back, a sign panel — but never carrying the firm's identity on its own.

Final Logos / Triangle Mark

TRIANGLE GROUP — ACCENT ONLY

A texture, not a mark. Use small — a corner accent, a divider, a repeating pattern — or oversized and faint as a background. It is never used in place of the logo, at any size.

Final Logos / Triangle Groups

MONT HAUS
INTERNATIONAL REALTY

MH FULL HORIZONTAL — RESTRICTED

Released only when a format physically cannot hold the stack: *Vail Daily* classifieds, banner ad slots, narrow email footers. It is not the proper treatment of our name and is not a stylistic alternative. It exists in black only, and may not be used on a dark ground.

Final Logos / MH Full Horizontal

Order of preference

ALWAYS AVAILABLE

MH Full Stack and the **M Mark**. If you are not sure which mark to use, the answer is one of these two.

BACKGROUND & ACCENT

The **Triangle Mark** and the **Triangle Group**. The single triangle may occasionally appear as a large foreground graphic on a plain panel; the triangle group may not. Neither ever stands in for the logo.

BY NECESSITY ONLY

MH Full Horizontal, and only when the shape of the space leaves no alternative. If a stacked logo fits, use the stacked logo.

ANATOMY

The lockup is two elements. MONT / HAUS is custom-drawn lettering — the diagonal cut through the M is the mountain that the whole identity is built from, and it reappears as the M Mark and the Triangle Mark. Below it, INTERNATIONAL REALTY is set in Apparat SemiCondensed Light, all caps, tracked +90/1000 em.

Those proportions are fixed. The descriptor cap height is 21% of the wordmark cap height; the space between HAUS and the descriptor is 26% of the wordmark cap height. Scale the whole lockup or nothing.

Clear space, size and color

CLEAR SPACE

Keep a margin of X on all four sides, where X is the cap height of the MONT letterforms — 37% of the lockup’s total height, or 27% of its width. Nothing enters that zone: no type, no rules, no photo edge, no other logo. This is the margin already used on the 450 Solar Way postcard, where a 0.95 in lockup sits 0.25 in from both trim edges.

MINIMUM SIZE

ASSET	PRINT	SCREEN
MH Full Stack	0.875 in wide	120 px wide
MH Full Horizontal	1.75 in wide	240 px wide
M Mark	0.25 in wide	32 px wide
Triangle Mark	0.1875 in wide	24 px wide

Below these, the Apparat Light descriptor fills in and the diagonal cut closes. If a space is smaller than the minimum, switch to the M Mark rather than shrinking the lockup.

The reversed set is separate artwork

White on black is not black on white inverted. Light spreads optically against a dark ground, and the diagonal cut through the M — the mountain the whole identity rests on — closes up to a hairline. Mont Haus therefore holds a second, redrawn set for dark grounds, with that cut widened to compensate. Never take a black logo file and flip its color. Open the reversed file.

**WRONG — BLACK ART
REVERSED**

The cut all but disappears. The mark reads as a filled block with a scratch in it.

RIGHT — M-MARK_WHITE

The counter is opened. The M and the mountain both hold at any size.

**MONT
HAUS**

INTERNATIONAL REALTY

**WRONG — BLACK ART
REVERSED**

A hairline through the M, and the descriptor thickens and crowds.

**MONT
HAUS**

INTERNATIONAL REALTY

**RIGHT — MH-STACK-
LOGO_WHITE**

Cut widened, spacing corrected. Very slightly wider overall: 1.359 : 1.

A quick way to check a file before you place it: at thumbnail size the reversed M should still read as two strokes with light between them. If the diagonal has gone to a thread, you have the wrong file.

THE REVERSED ARTWORK — WHAT EXISTS

**MONT
HAUS**
INTERNATIONAL REALTY

MH FULL STACK

MH Full Stack / MH-stack-logo_white
.ai · .eps · .pdf · .png

M MARK

M Mark / M-mark_white
.ai · .eps · .pdf · .png · .svg

TRIANGLE MARK

Triangle Mark / triangle_mark-white
.ai · .eps · .pdf · .png

NO REVERSED
HORIZONTAL LOCKUP

MH FULL HORIZONTAL

Deliberately not drawn. The horizontal lockup may not be used on a dark ground.

There is no reversed version of the horizontal lockup and there will not be one. If a dark placement is so narrow that only a horizontal logo fits, that placement takes the M Mark instead. One stray file predates this rule and must be ignored: [Mont Haus / MH-stack-logo_white.svg](#) in the top level of the folder, which is a plain reverse of the black art rather than the reversed lockup.

APPROVED COLOR VARIANTS

**MONT
HAUS**
INTERNATIONAL REALTY

BLACK ON LIGHT

The default. On white, cream or a pale photograph.

**MONT
HAUS**
INTERNATIONAL REALTY

WHITE ON DARK

On black panels and over darker areas of photography. Always the separate reversed file, never the black file recolored. A cream tint is made by recoloring the *reversed* artwork.

**MONT
HAUS**
INTERNATIONAL REALTY

STONE GRAY

A supplied single-color variant for muted contexts and secondary partner listings. Not for primary marketing.

BRONZE

Supplied for the Triangle Mark only, on cream. Do not recolor the wordmark bronze.

One color at a time. The logo is never gradient-filled, never two-tone, never given a drop shadow, glow, outline or bevel. On photography, place it over an area that is genuinely light or genuinely dark — if you need a scrim to make it legible, you have chosen the wrong crop.

Color

The palette is deliberately narrow: warm black, cream, and a bronze that shifts to brass when it sits on dark. Everything else in a Mont Haus piece — the blue of an Aspen sky, the gold of a stand of aspens — comes from the photograph, not the palette.

CORE

INK BLACK

HEX #231F20
RGB 35 31 32
CMYK 0 0 0 100

The color the logo artwork is drawn in. Use for the logo, rules and type on light grounds.

RICH BLACK

HEX #131210
RGB 19 18 16
CMYK 71 66 68 80

Large printed fields — brochure spreads, postcard backs, card stock. Never set small type in a four-color black; use Ink Black.

BRONZE

HEX #8A7350
RGB 138 115 80
CMYK 23 31 62 1

The accent on light grounds: eyebrows, hairlines, spec labels, the outlined Triangle Mark.

BRASS

HEX #C3A561
RGB 195 165 97
CMYK 25 33 70 3

Bronze's counterpart on black. Statistics, eyebrows and rules on dark panels. Bronze goes muddy on black; use Brass instead.

CREAM

HEX #EFECE6

RGB 239 236 230

CMYK 5 4 8 0

The reversed logo color and the light page ground. Warmer and more expensive-looking than white; prefer it to pure white for large fields.

NEUTRALS

PAPER CREAM

HEX #F1ECE2

RGB 241 236 226

CMYK 5 6 11 0

Interior pages that need to breathe — floor plans, specification spreads, this document.

MIST

HEX #E9E8E5

RGB 233 232 229

CMYK 8 6 7 0

The watermark tint for the oversized Triangle Mark on white pages. Nothing else.

STONE GRAY

HEX #808285

RGB 128 130 133

CMYK 0 0 0 58

The gray logo variant, captions, photo credits, disclaimer type.

WHITE

HEX #FFFFFF

RGB 255 255 255

CMYK 0 0 0 0

Type reversed out of photography, and the ground for floor plans and documents. Cream is the preferred large field.

CORPORATE PRESENTATION ACCENTS — RESTRICTED

Three colors exist in the 2026 Listing Presentation and nowhere else. They belong to corporate capabilities decks: the duotone section dividers, the editorial pull quotes. They are not available for listing marketing — no flyers, postcards, signs or listing social posts.

ALPINE GOLD
HEX #E0B526

EDITORIAL GOLD
HEX #CE9411

GLACIER BLUE
HEX #3E8FA8

HOW THE PALETTE IS SPENT

A rough proportion that holds across every approved piece:

SHARE	COLOR	WHERE
~60%	Photography	Full-bleed imagery carries the piece
~30%	Black & cream	Panels, type, page grounds
~8%	White	Reversed type, plan pages
~2%	Bronze / brass	Eyebrows, hairlines, numerals

Bronze is a seasoning, not an ingredient. If a piece looks gold, there is too much of it.

Typography

Two serifs and one sans. The serif sets the property name and the sentence you want remembered; the sans does everything else, in caps, tracked wide and set light. Both display faces and the sans are on Adobe Fonts, so anyone with a Creative Cloud subscription can activate them in a minute.

APPARAT SEMICONDENSED

Lettersoup · Adobe Fonts · Light / Regular / Medium / Semibold

ABCDEFGHIJKLMNOPQRSTUVWXYZ
ABCDEFGHIJKLMNOPQRSTUVWXYZ

STUNNING BRUSH CREEK REMODEL

The voice of the brand. It sets the logo's own descriptor line, every eyebrow, every specification label, and all body copy on marketing pieces. Its condensed width is what makes long tracked caps fit.

FREIGHTBIG PRO

The Freight Collection · Adobe Fonts · Light / Book / Medium / Semibold

ABCDEFGHIJKLMNOPQRSTUVWXYZ
NOPQRSTUVWXYZ

450 Solar Way

The corporate display serif. Property names on direct mail, headlines and pull quotes in the Listing Presentation, statistics. High contrast, generous width — it wants to be set large and given room.

221 Wrights Road

A Red Mountain Retreat

The listing-brochure serif, used at Light throughout the 221 Wrights Road and 633 West Main books. Lighter and more classical than FreightBig; it suits the dark, quiet property brochure. Its italic sets the one-line subtitle beneath a property name. Because it is free, it is also the correct substitute anywhere Adobe Fonts is unavailable.

The type scale

Sizes and tracking measured from the approved files. Tracking is InDesign units — thousandths of an em; divide by 1000 for CSS em.

ROLE	FACE	WEIGHT	SIZE	TRACKING	CASE	SOURCE
Property name	FreightBig Pro	Light	50 pt	0	Title Case	450 Solar Way postcard, 8.5 × 5.5 in
Photo eyebrow	Apparat SemiCond	Regular	8.5 pt	+250	ALL CAPS	Postcard front, bronze
Property subtitle	Apparat SemiCond	Regular	10 pt	+100	Title Case	Postcard front
Panel headline	FreightBig Pro	Medium	17 pt	+10	Sentence case	Postcard back
Status / price line	Apparat SemiCond	Regular	7 pt	+200	ALL CAPS	Postcard back, brass
Body copy	Apparat SemiCond	Regular	10 pt	0	Sentence case	Postcard back
Statistic value	FreightBig Pro	Semibold	14 pt	0	Numerals	Postcard stat row
Statistic label	Apparat SemiCond	Medium	6 pt	+200	ALL CAPS	Postcard stat row, brass
Agent name	FreightBig Pro	Semibold	13 pt	0	Title Case	Postcard back
Agent phone	Apparat SemiCond	Semibold	8 pt	+200	Numerals	Postcard back
Agent email	Apparat SemiCond	Semibold	7 pt	0	lowercase	Postcard back
Firm address block	Apparat SemiCond	Medium	7 pt	+100	ALL CAPS	Postcard return address, bronze

ROLE	FACE	WEIGHT	SIZE	TRACKING	CASE	SOURCE
Section divider	Apparat SemiCond	Regular + Black	92 pt	−10	ALL CAPS	2026 Listing Presentation, 11 × 8.5 in
Editorial headline	FreightBig Pro	Medium	44–46 pt	0	Sentence case	Listing Presentation
Pull quote	FreightBig Pro	Medium	24 pt	0	Sentence case	Listing Presentation, Editorial Gold
Social tagline	Apparat SemiCond	Regular	52–63 pt	0	Sentence case	Corporate posts, 1080 × 1440 px
Logo descriptor	Apparat SemiCond	Light	—	+90	ALL CAPS	Logo artwork — do not reset
Sizes scale with format. Hold the ratios and the tracking; those are what make a piece look like ours.						

Treatments

THE TRACKED EYEBROW

All caps, Apparat SemiCondensed, tracked between +100 and +250, in bronze on light or brass on dark. Interpuncts — not hyphens, not slashes — separate the parts. It labels; it never carries information you would be sad to lose.

633 West Main

A Victorian in the Aspen core

NAME AND SUBTITLE

The property name in the display serif, Light, set large. Directly beneath it, one line of italic at roughly 40% of that size. The subtitle is a phrase, not a sentence, and it never ends in a period.

3

BEDS

4

BATHS

2,969

SQ FT

2.73

ACRES

THE STATISTIC ROW

Serif numerals over tracked caps labels, evenly spaced, sitting between two hairlines. Numerals use tabular figures so columns line up. Labels are bronze or brass; values take the ground's text color.

ALPINE ROOTS.
GLOBAL VISION.

THE TWO-WEIGHT HEADLINE

A corporate device only, from the Listing Presentation dividers: one phrase set in two weights of the same face, Regular against Black, all caps, tracked slightly tight at -10. The weight change lands on the word that matters. Use it once per piece, or not at all.

Substitutes and where they are allowed

Word, Gmail, MLS remarks fields, Canva Free and most vendor portals cannot use

Adobe Fonts. These are the only approved stand-ins.

BRAND FACE	SUBSTITUTE	WHERE IT IS ALLOWED
FreightBig Pro	Cormorant Garamond (free, Google Fonts)	Web, email, Word, presentations, any vendor without Adobe Fonts
Cormorant Garamond	Georgia	Email signatures and system-constrained templates only
Apparat SemiCondensed	Barlow Semi Condensed or Roboto Condensed (both free)	Web, email, Word, vendor portals
Apparat SemiCondensed	Arial / Helvetica	Plain-text email and MLS fields only, where nothing else is possible

FACES CURRENTLY IN CIRCULATION THAT SHOULD NOT BE

Audits of the current files turn up Calibri (body copy in the 2026 Listing Presentation), Roboto (divider headlines in the same deck), and stray Minion Pro, Myriad Pro and Avenir Next. None of these is a Mont Haus face. Calibri and Roboto in particular are what an unstyled document defaults to, and they read that way. Replace them as files are revised.

Layout & composition

The same handful of moves, repeated. A Mont Haus piece is recognizable before you read a word of it because of how it is built, not because of a logo in the corner.

-
- 01 Photography goes to the trim. Cover images, section images and interior spreads bleed off all four sides. Framed, floating, drop-shadowed or rounded photographs are not part of this system.
-
- 02 Type sits on the image, not beside it. Property names and captions are reversed out of the lower third of a photograph, aligned left to the page margin. Find a genuinely dark area for white type; do not add a black box behind it.
-
- 03 Caption chips are small, dark and set in the corner. A short tracked-caps label on a translucent black chip identifies a room or view. One per image, maximum.
-
- 04 Dark panels carry the words. When a page has to be read rather than looked at, it becomes a black field with centered or left-aligned serif copy, a short bronze hairline above it, and a great deal of space around it.
-
- 05 Hairlines organize, boxes do not. A single 0.25–0.5 pt rule — vertical along the left of a headline, horizontal above a statistic row, short and centered above a lead paragraph. There are no boxes, no rounded corners, no fills behind text blocks.
-

- 06
- The triangle watermark is oversized and nearly invisible. On light editorial pages, one Triangle Mark at Mist gray, cropping off the right and bottom edges, sitting behind the text. It is atmosphere. If a reader notices it as a graphic, it is too strong.
- 07
- Margins are generous and consistent. A quarter inch of clear space at postcard scale, proportionally more on larger formats. White space is the single cheapest way this brand signals price.
- 08
- One idea per page. The approved brochures put a single headline, a single image or a single statistic group on a page and let it sit there. Resist filling the space.

IMAGERY

Listing photography is warm, low, and shot at the edges of the day — interiors lit from within, exteriors at dusk with the house glowing. Corporate photography is the opposite register: wide alpine landscape, saturated, no architecture at all, used at full bleed with the logo reversed over the sky.

Do not apply filters, vignettes, borders or color grades of your own. Do not stretch an image to fill a frame — crop it. Every listing image must be one we have the rights to use; when a photograph is not ours, credit it in Stone Gray at caption size.

Minimum resolution

USE	REQUIREMENT
Print, full bleed	300 ppi at final size
Large-format signage	150 ppi at final size
Social, portrait	1080 × 1440 px
Web hero	2400 px wide

Approved applications

These pieces are the reference. When you are unsure how something should look, find the closest example here and follow it.

LISTING BROCHURE

COVER

Full-bleed dusk exterior; name and italic subtitle reversed into the lower left; tracked-caps location eyebrow above.

INTERSTITIAL

Black field, centered serif paragraph, a short brass rule, and a statistic row. Nothing else on the page.

INTERIOR SPREAD

One image to the trim, one caption chip, one line of description centered beneath.

PLANS

Cream ground, plan floated with generous margin, level and square-footage set as a serif and label pair.

AGENT LISTING FLYER

633 WEST MAIN — COVER

The same architecture as the development brochure, at agent scale. Any Mont Haus agent's listing book should be indistinguishable in structure from this one.

DIRECT MAIL

THE PARTICULARS

Four columns of tracked-caps headers in brass over short specification lines. This is the approved way to present features — not bullet lists.

FRONT

Full-bleed image, cream logo at 0.95 in in the top-left corner with 0.25 in of clear space, name and subtitle in the lower right above a short rule.

CORPORATE SOCIAL

BACK

Black panel, image strip, headline, body, statistic row, two agents with headshots, logo bottom-right. Return address in bronze tracked caps.

MONT HAUS INTERNATIONAL REALTY
400 E HOPKINS AVE, STE 304
ASPEN, CO 81615

1080 × 1440

Alpine landscape to the edges, oversized logo reversed at partial opacity across the sky.

TAGLINE PLACEMENT

One approved line, sentence case, lower third, left aligned to the same margin as the logo.

CONTRAST

The logo goes where the sky is open. Never over a busy ridgeline or a tree canopy.

STACK BACK

Preferred. Cream lockup centered on black.

TRIANGLE BACK

Permitted. The large Triangle Mark on a plain black field is the one place it appears as a foreground graphic.

GROUP ACCENT

Permitted at small scale, as texture — the group never fills the card.

INFORMATION SIDE

Name in tracked caps, title and contact in Apparat, mark right-aligned. Order is fixed: name, title, phone, email, address, monthaus.com.

CORPORATE PRESENTATION

Mont Haus exists at the intersection of authentic mountain heritage and global real estate intelligence.

Mont Haus was born in the mountains of Colorado, where a deep respect for the alpine landscape shapes everything we do.

From the dramatic peaks surrounding Aspen and Vail to the energy of Denver's growing metropolitan center, this region has long attracted individuals seeking extraordinary places to live, gather, and invest.

While our roots remain firmly planted in Colorado, our work increasingly connects exceptional properties with buyers and investors from the world's most influential markets.

Our role is not simply to facilitate transactions, but to serve as trusted advisors and stewards of remarkable real estate assets.

DIVIDER

The two-weight headline over a duotone image. This device belongs to the Listing Presentation and stays there.

EDITORIAL PAGE

Serif headline hung from a vertical hairline, two narrow text columns, a gold pull quote low right, oversized triangle watermark behind.

Voice & copy standards

Restrained, specific, and confident enough not to shout. We describe what is actually there — the drive up through the lavender, the view from Independence Pass to Mount Sopris — and let the reader draw the conclusion.

WE WRITE

- Concrete detail over adjectives
- Complete sentences, sparingly punctuated
- Sentence case in body copy
- Numerals for beds, baths, acres, square feet
- Em dashes for asides, spaced en dashes never
- Named places: Red Mountain, Brush Creek, the Core

WE DO NOT WRITE

- “Stunning,” “luxurious,” “must see,” “dream home”
- Exclamation points, ever
- ALL CAPS for emphasis in running copy
- Emoji in corporate posts
- Hashtag stacks
- Real-estate abbreviations: BR, BA, gorg, w/

THE FIRM'S NAME

Full name on first reference and in any legal or contractual context: Mont Haus International Realty. After that, Mont Haus alone.

Two words, both capitalized, no hyphen, no internal capital. **Not MonthHaus. Not Mont-Haus. Not MHIR. Not Mont Haus Realty. Not MONT HAUS in running copy** — the all-caps form belongs to the logo artwork only.

STANDING DETAILS

Aspen
600 E Hopkins Ave, Ste 304
Aspen, CO 81611

Vail
183 Gore Creek Drive
Vail, CO 81657

Web monthaus.com · Instagram [@monthausrealty](https://www.instagram.com/monthausrealty)

Set addresses on separate lines, never run together with commas. In tracked-caps address blocks, use the postal abbreviation STE.

APPROVED TAGLINES

Alpine Roots. Global Vision.

PRIMARY — CORPORATE BRAND POSTS, COVERS, SIGNAGE

Stewards of Extraordinary Places

SECONDARY — BRAND AND RECRUITMENT

The Mountains Call. Mont Haus Answers.

CAMPAIGN — SOCIAL ONLY

Remarkable Real Estate Demands Remarkable Representation

CAMPAIGN — SELLER-FACING

There are places in this world that don't just change your address, they change your life.

LONG FORM — ONE PER CAMPAIGN, NEVER PAIRED WITH ANOTHER LINE

Set taglines in sentence case in the sans, or in the display serif when they sit beneath a property name. Do not invent new ones for individual listings.

BOILERPLATE

Mont Haus International Realty was born in the mountains of Colorado, where a deep respect for the alpine landscape shapes everything we do. From Aspen and Vail to Denver, we connect exceptional properties with buyers and investors from the world's most influential markets — serving not simply to facilitate transactions, but as trusted advisors and stewards of remarkable real estate assets.

Use verbatim in press releases, listing presentations and partner materials.

Shorten from the end if space requires; do not rewrite.

SECTION SEVEN

Do not

Every item below has happened. None of it is a matter of taste.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT REVERSE THE BLACK ART

The diagonal cut closes to a hairline. Open MH-stack-logo_white, M-mark_white or triangle_mark-white instead.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT STRETCH

Hold shift. The lockup is 1.356 : 1 and never anything else.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT ROTATE

The logo is always horizontal, including on vertical signage.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT RECOLOR

Black, cream, white or the supplied gray. Never a listing's accent color, never a gradient.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT ADD EFFECTS

No shadow, glow, outline, bevel, or stroke to "help it pop."

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT CROWD

One cap height of clear space on every side, always.

**MONT
HAUS**
INTERNATIONAL REALTY

DO NOT RETYPE

The wordmark is drawn artwork. Setting it in a font — any font — produces a different company.

DO NOT PROMOTE THE GROUP

The triangle group is texture. It never stands where the logo should be — not on a cover, a sign, an avatar or a card front.

DO NOT DEFAULT TO HORIZONTAL

Reach for the horizontal lockup only when the format cannot hold the stack.

AND IN THE LAYOUT

- 01 Do not put the logo inside a white box on a photograph. Move it to a clear area, or place the reversed file over a dark area.

- 02 Do not use the horizontal lockup on anything dark. No reversed version exists. Use the M Mark.

- 03 Do not use two logos on one surface. One lockup per side of a card, one per page, one per post.

- 04 Do not mix the display serifs in a single piece. FreightBig or Cormorant, not both.

- 05 Do not tighten the tracking on caps eyebrows to make a line fit. Shorten the line.

- 06 Do not set body copy in the display serif, and do not set headlines in Apparat outside the Listing Presentation dividers.

- 07 Do not add borders, rounded corners, gradients or drop shadows to photographs, panels or text blocks.

- 08 Do not use the restricted presentation colors — Alpine Gold, Editorial Gold, Glacier Blue — on listing marketing.

- 09 Do not use a logo file from outside the five live folders. Everything else in Final Logos is retired, however finished it looks.

- 10 Do not build a personal sub-brand. Agent team names, personal logos, alternate color schemes and custom marks are not permitted on Mont Haus collateral.

- 11 Do not send anything to print without a proof to marketing. The last postcard reached press with a misspelled subtitle and the wrong ZIP code in the return address.

Files & formats

All final artwork lives in Mont Haus / Final Logos. Pull from there every time. A logo that has been copied out of a PDF, dragged from the website or re-saved from a screenshot is not a logo file.

FORMAT	USE IT FOR	NOTES
.ai / .eps	Print vendors, signage fabricators, embroidery, laser cutting	Send these to any outside printer. Fonts are outlined; no font licence transfers.
.pdf	Ad submissions, newspaper classifieds, placement in InDesign	Vector and scalable. Preferred for the <i>Aspen Daily News</i> and <i>Vail Daily</i> .
.svg	Web, email, anything on screen	Scales cleanly and stays crisp on retina displays.
.png	Slides, social tools, Word, quick placements	Transparent background. Never scale up beyond 100%.
.jpg	Nothing, for logos	A JPEG logo has a white box around it and compression artifacts on the edges.
_white files	Any dark ground	Separate, redrawn artwork — not a color swap. Every mark except the horizontal lockup has one.

FIVE FOLDERS, AND ONLY FIVE

The live artwork lives in MH Full Stack, M Mark, Triangle Mark, Triangle Groups and MH Full Horizontal. Everything else inside Final Logos is retired — earlier lockups, one-off exports, alternate treatments that were tried and set aside.

Retired does not mean unusable-looking. Several of those files open cleanly and look plausible, which is exactly why they cause trouble. If a file is not in one of the five folders above, it is not a Mont Haus logo, whatever it looks like.

ACTIVATING THE FONTS

Apparat Semi Condensed and FreightBig Pro are both on [Adobe Fonts](#) and included with any Creative Cloud plan — search the family name and click Activate. [Cormorant Garamond](#) is free from Google Fonts and can be installed on any machine.

Outside vendors do not need font licences: send outlined vector artwork, or a packaged InDesign folder, and specify the substitutes above if they must set new type.

600 E Hopkins Ave, Ste 304
Aspen, CO 81611

QUESTIONS

Anything not covered here goes to marketing before it goes to print. A five-minute question is cheaper than a reprint.

ABOUT THIS EDITION

Edition 01, September 2026.
Specifications measured from the 2026 Listing Presentation, the 221 Wrights Road and 633 West Main brochures, the 450 Solar Way direct mail, the corporate social library and the final logo artwork.

183 Gore Creek Drive
Vail, CO 81657
